STANDARD SLEEPER - 12 S / 7 R / 1 Crew

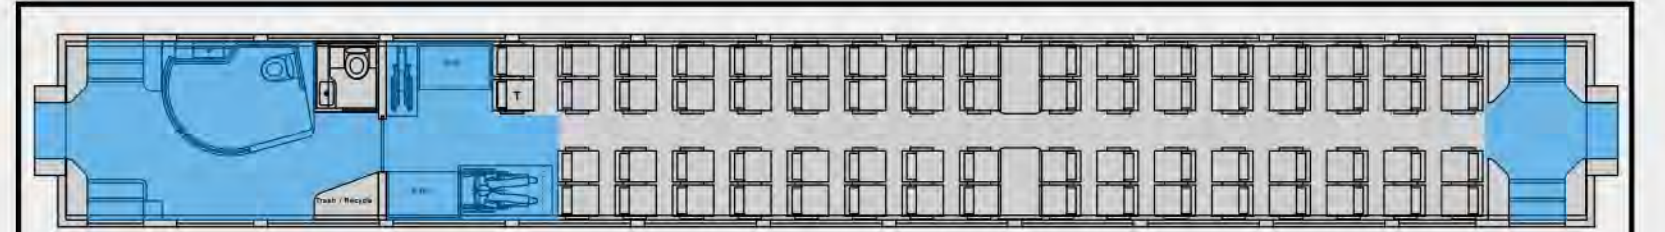

UTILITY CAR - 6 R (Crew) + 8 seats + Minimum of 1,600 cu ft

Option Car

ACCESSIBLE CORE

The accessible core offers an accessible path at 32" wide that allows passengers who use wheelchairs to move freely between each car.

HIGH CAPACITY COACH (37" pitch) - 66 C / 1 MOB *2x DOORS

Option Car

 Accessible path in accordance with equivalent facilitation

ENTRANCE WAYS

Our new trains extend a warm welcome to all passengers. Handholds are strategically placed to enhance stability as passengers move through the car and access their accommodations. The interior design is crafted to feel more like a hotel lobby, featuring a central light, wood finishes, and an open layout.

SEAMLESS ACCESS

The vestibule is designed as an open and intuitive space. Soft corners and carefully crafted architecture guide natural passenger movement, supporting safe and efficient flow even at busy times. Seamless surfaces maintain visual clarity and simplify cleaning and maintenance. Carefully selected colors and materials introduce gentle contrast to enhance openness and aid navigation for visually impaired passengers. Vertical and horizontal handrails are integrated throughout, providing reassurance, accessibility, and support from the moment passengers step on board.

SLEEPER HALLWAYS

Sleeper hallways are bright and open, with simple way-finding and clear room numbering. Each sleeper car also features a well-appointed beverage station offering coffee and fresh water.

TRAVEL EASE

Amtrak's commitment to thoughtful baggage handling ensures your bags are well cared for throughout the journey. Baggage towers, checked baggage cars, and convenient overhead shelves allow passengers to travel knowing their belongings are safely stored and easily accessible.

COACH

The Heart of Our Journey

Our coach passengers are the heart of Amtrak's long-distance service. They are the driving force behind our mission to connect people across America. Their choice to ride with us fuels the journey that brings our nation closer together. We understand the importance of offering an

affordable travel option while ensuring that our coach customers feel valued and appreciated.

The interior should be thoughtfully designed to reflect the significance of this market and should echo the value we place on their experience.

OPTIMIZED FOR SLEEP

Experience the ultimate sleep-friendly coach seat: plush cushions, tailored ergonomics, a recline optimized for rest, privacy wings, an adjustable headrest pillow, and a leg rest for added comfort. Designed to help passengers sleep well and wake refreshed.

VISUALLY RESTFUL

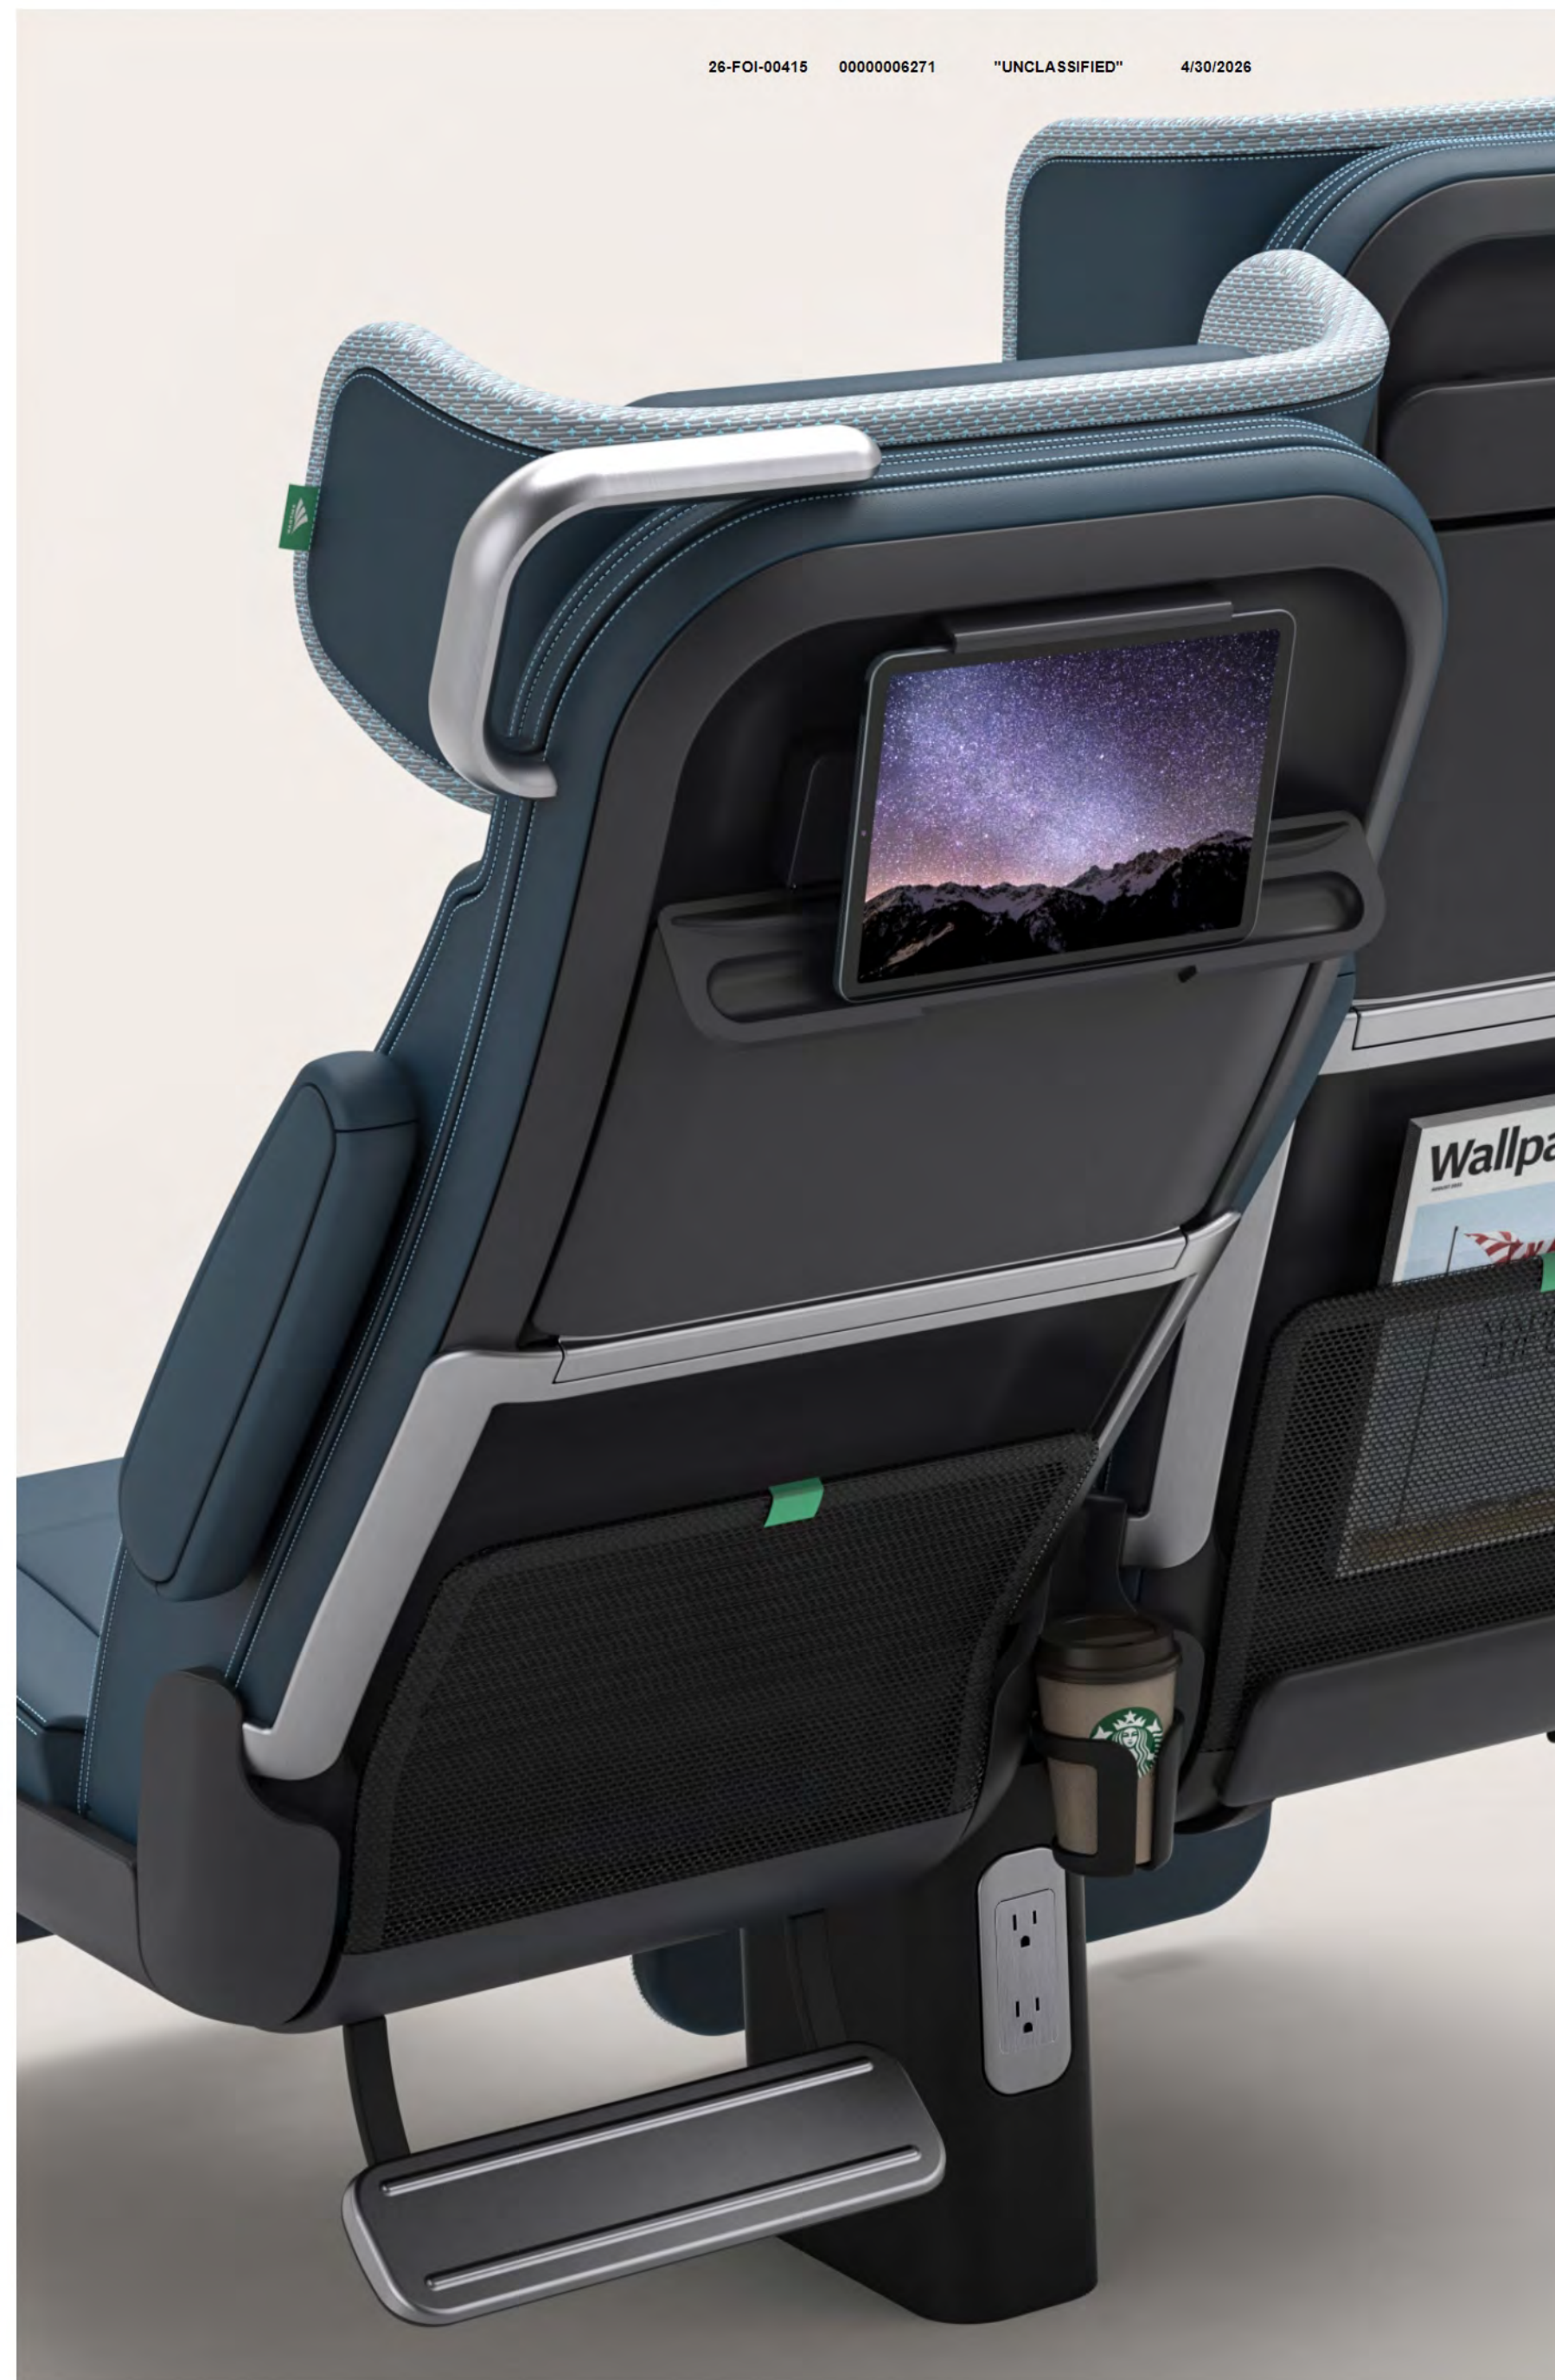

Seats and surrounding architecture are designed to provide maximum functionality and convenience without visual clutter. By balancing integrated features with a purity of form, the space feels calm, visually restful, and comfortable for passengers. Elegance and convenience are thoughtfully combined throughout.

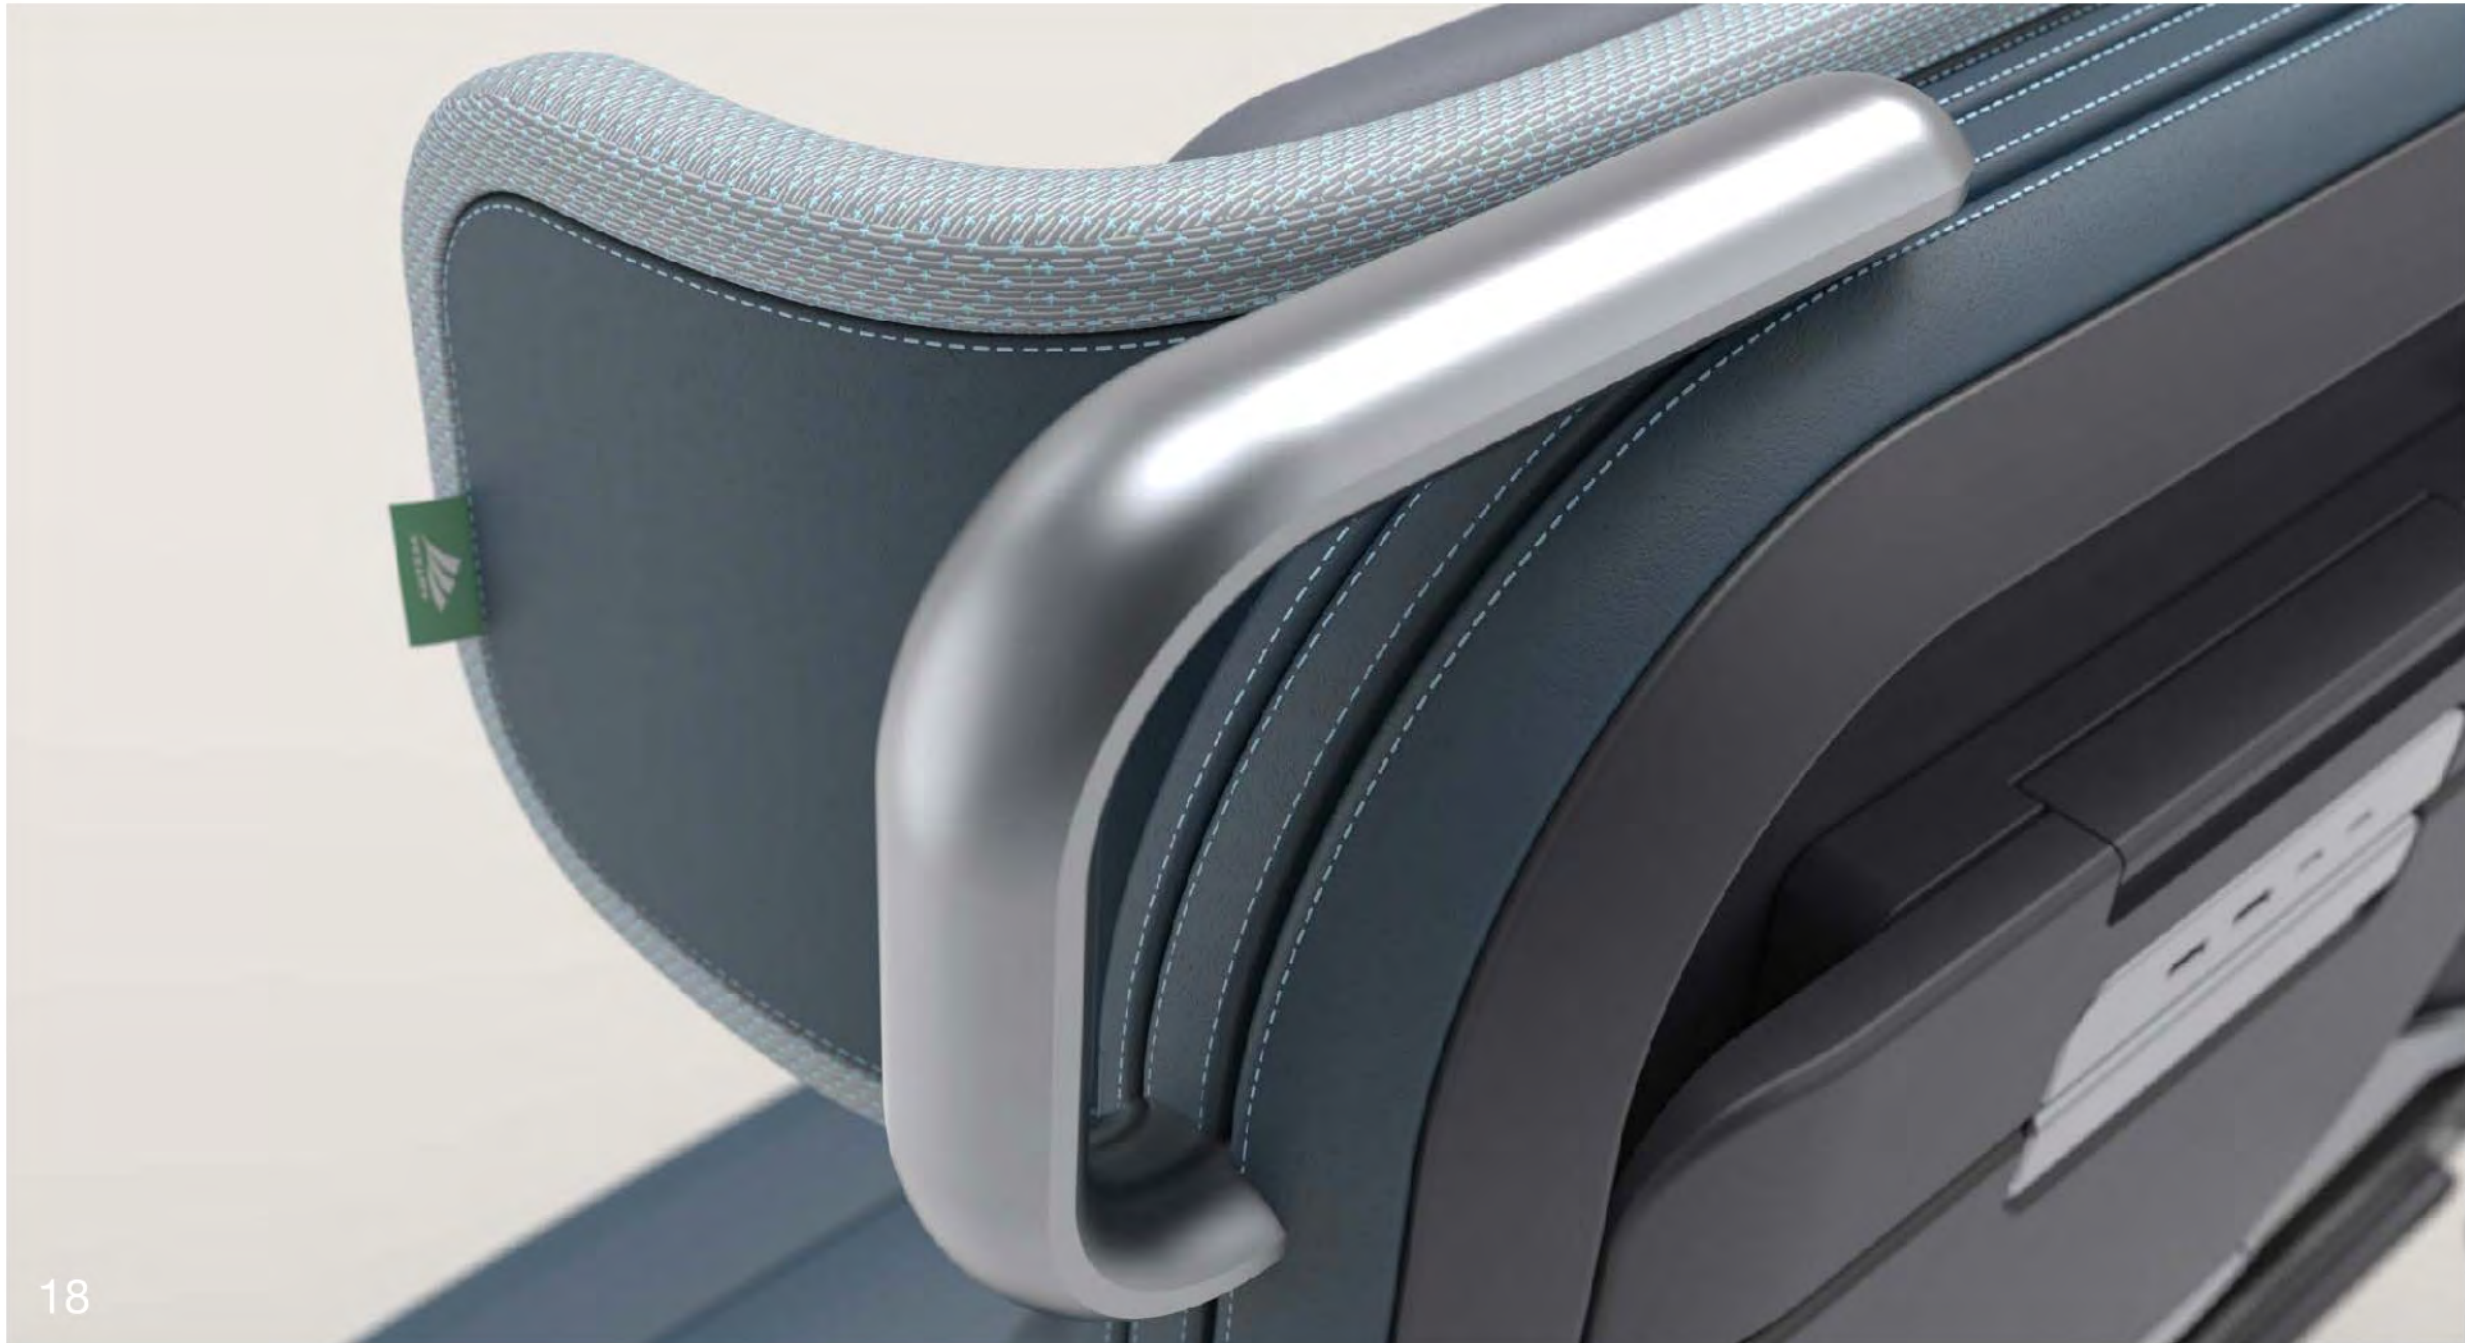

FULLY EQUIPPED

Comfy seats with tables for your laptop, device holders, cup holders for your favorite beverages, a fully adjustable seat for relaxation, power sockets to keep your devices charged, and personal lighting for the perfect ambiance. Everything you need for a comfortable and effortless journey.

PREMIUM COACH

Elevating the Long-Distance Coach Experience

In response to the demand for elevated comfort on our long-distance trains, we proudly introduce 'Premium Coach.' Our customers are at the forefront of a new era in Amtrak's long-distance service. 'Premium Coach' represents an exciting step forward, designed to elevate our passengers' journey with spacious, larger seats, more space,

fantastic views, and enhanced privacy. With 'Premium Coach,' our customers can expect the same fantastic features as in our standard coach, but with the added luxury of enhanced seating and increased space. Together, we embark on this journey, redefining long-distance travel with 'Premium Coach'.

TRANQUIL SPACE

Premium Coach features a generous seat pitch that increases legroom and personal space. The 2 × 1 seating configuration allows for wider seats and a more comfortable passenger experience. Large headrest wings add privacy and support.

CRADLE COMFORT

Premium Coach seats recline to the renowned “Lazy Z” position, designed to enhance comfort. This ergonomic recline supports a more relaxed sitting and sleeping posture, making long journeys more comfortable for passengers.

FULLY EQUIPPED

The Premium Coach seat offers a high level of personalization, with an adjustable center console table and “Lazy Z” recline providing fully customizable seating positions. Practical features include a device holder, cup holders, USB, and power outlets for added comfort and convenience.

THE LAZY Z

The “Lazy Z” position is designed to enhance comfort during long periods of sitting. In this position, the seat reclines to support the upper body while raising the knees, reducing pressure on the lower back and undersides of the legs. The result is a more ergonomic and comfortable posture for extended travel.

ROOMETTE

Setting the New Standard for a Classic Format

Introducing our revamped Roomettes for the new generation of long-distance travel. These classic accommodations have received a modern makeover, seamlessly blending the timeless comfort of leather seats with a contemporary aesthetic. As you step inside, you'll

discover a private space designed for relaxation and rest, complete with the familiar format you know and love. Our upgraded Roomettes redefine the art of travel, providing an elevated experience that marries classic charm with a fresh, sophisticated style.

HOME FROM HOME

Each space is designed to feel like a true home away from home. A carefully curated palette of inviting, high-quality materials such as wood, metal, and leather creates a warm and approachable tactility. Lighting is thoughtfully balanced to support both function and ambiance, resulting in environments that feel comfortable and enriching for passengers.

26-FOI-00415 0000006271 "UNCLASSIFIED" 4/30/2026

BETTER BEDS

The seats are ergonomically designed with a contoured form, side bolsters, lumbar support, and adjustable headrests, optimized for daytime comfort. When converted to a lower berth, they form a fully flat surface for a restful night's sleep. The intuitive conversion allows passengers to easily switch between seating and sleeping configurations. Slide-down upper bunks provide additional accommodation for sharing and families.

IN ROOM STORAGE

Storage is thoughtfully integrated throughout the rooms, with discreet cabinets keeping the space uncluttered. Dedicated locations for carry-on luggage, including convenient storage beneath the seat, ensure belongings remain easily accessible while maintaining a calm, organised environment.

CLUB BEDROOM

Versatility in a New, Spacious Format

The Club Bedroom is a groundbreaking addition to our accommodation options.

This innovative format provides ample room for two passengers but with the added flexibility to comfortably sleep a family of four. With four seats that convert into a double bed and an additional slide down double bunk, the Club Bedroom ensures a restful journey for our customers seeking that little extra space and versatility.

Complete with an en-suite bathroom, vanity sink, and ample storage, this spacious bedroom represents the next level of travel comfort.

CONVIVIAL SPACE

The Club Bedroom features two face-to-face sofas, creating a comfortable space for relaxation, conversation, or seating up to four passengers. With a double lower berth and a double upper bunk, it provides generous sleeping arrangements for two or a cosy option for families.

FEELING COMFORT

Enjoy exceptional comfort with wide seats, carefully designed with ergonomic precision and enhanced by plush cushioning for a supportive, contoured fit. Soft leather upholstery provides a refined finish that elevates the travel experience. Additional features include an extra-large table, multiple power outlets for personal devices, and convenient cup and bottle holders.

26-FOI-00415 0000006211 "UNCLASSIFIED" 4/30/2026

BETTER BATHROOMS

Our bedrooms feature well-appointed vanity areas, and the Club Bedroom includes a modern en-suite shower and toilet. Vanity units are equipped with mirrors, storage cabinets, and fresh towels. The bathrooms offer modern conveniences such as a large rain shower, separate shower handset, touch-less flush, and complimentary shower gel, shampoo, conditioner, and lotion.

IN ROOM STORAGE

Storage is thoughtfully integrated throughout the room, making intelligent use of vertical height and otherwise unused spaces. Open storage cubbies built into sidewalls and corners provide convenient places for smaller personal items.

Dedicated locations for carry-on luggage, including storage above the bathroom and beneath the seat, ensure belongings remain easily accessible.

SOLOSUITE

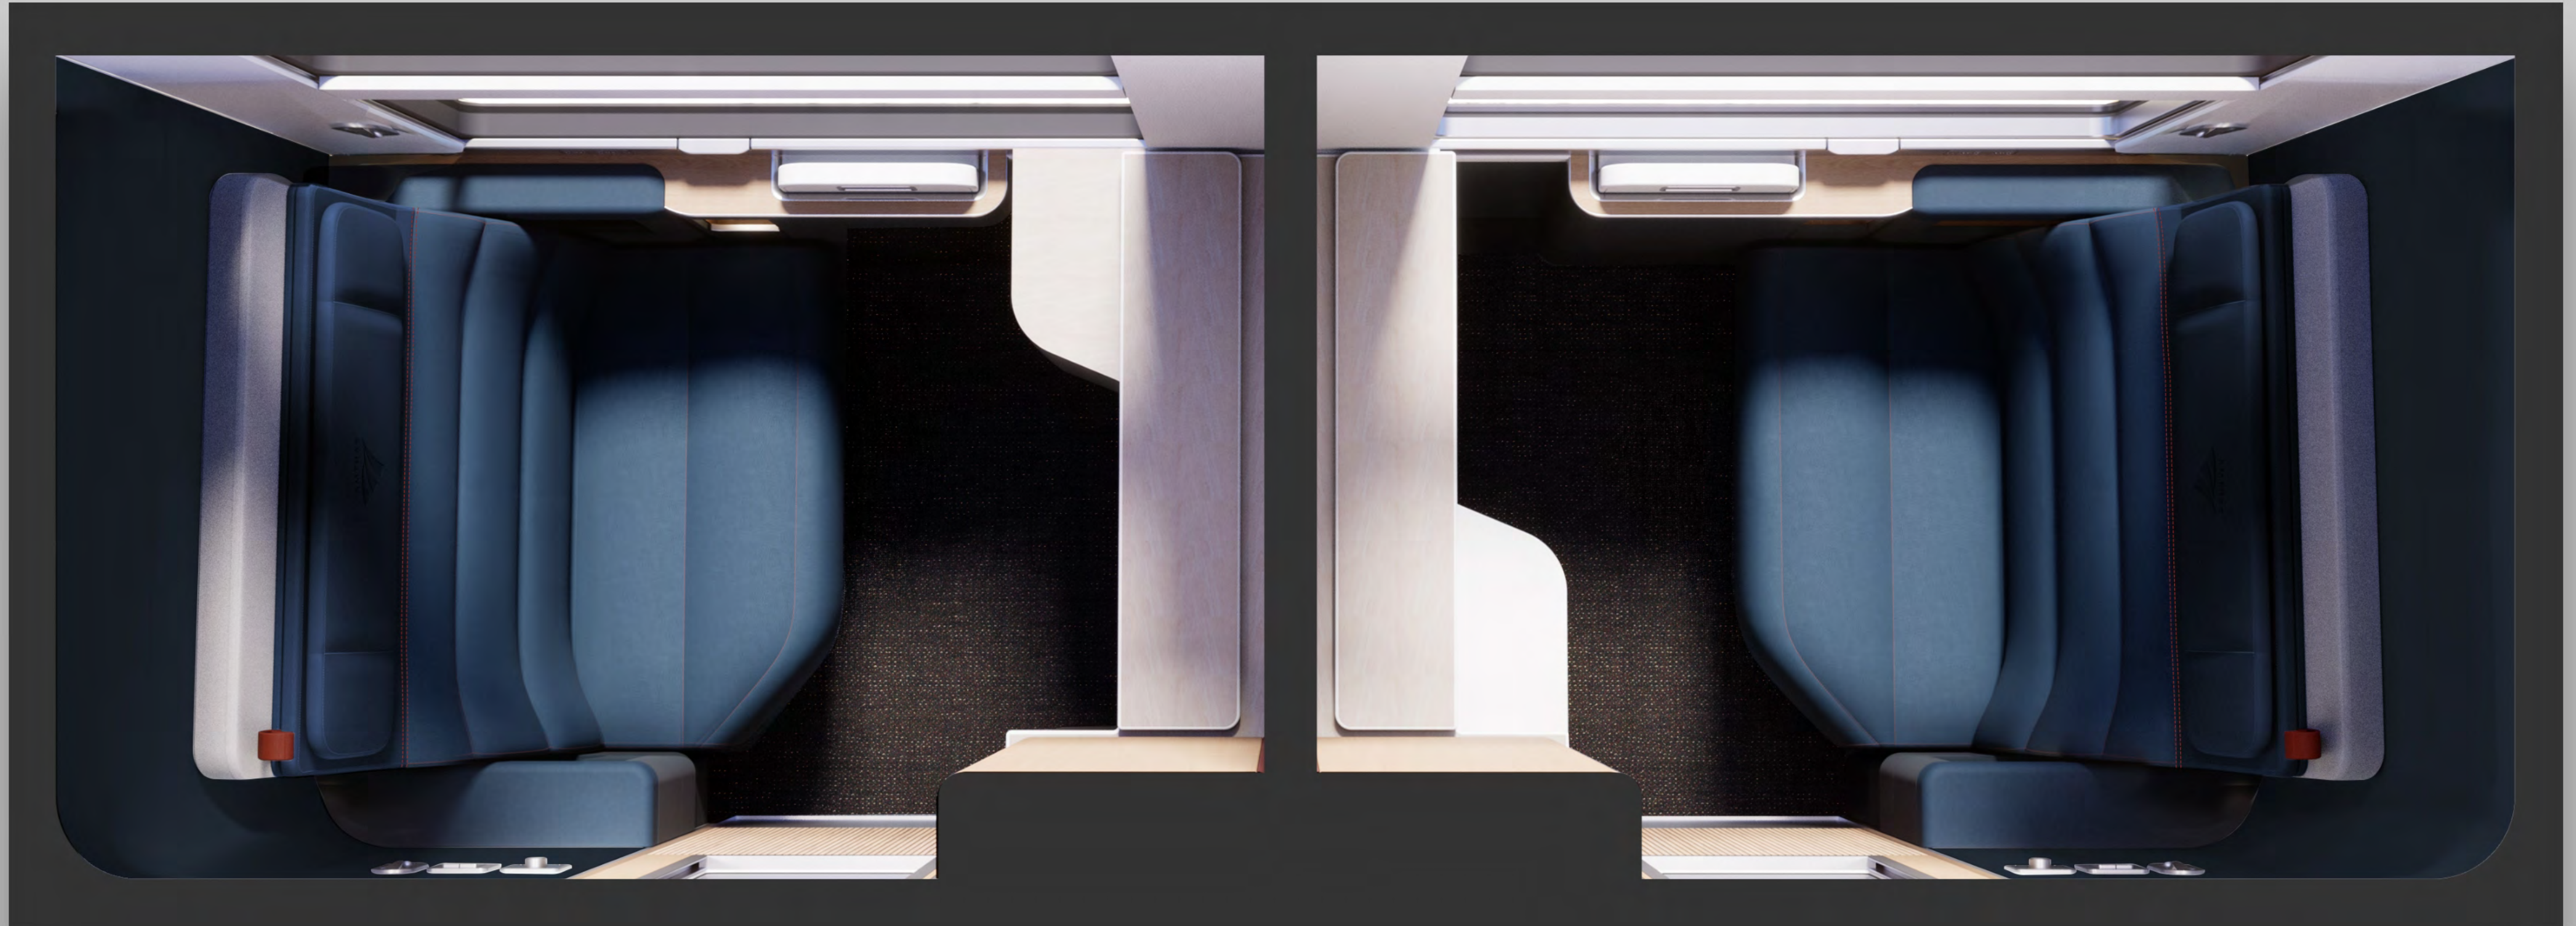

Where Solo Comfort Meets Shared Adventures

Introducing 'SoloSuite,' our versatile accommodation designed to cater to the unique needs of solo travelers, with the flexibility to accommodate two passengers when desired. 'SoloSuite' offers a comfortable solo retreat with a spacious single bed and all the amenities and conveniences you'd expect from our bedrooms. For

those seeking the companionship of a fellow traveler, 'SoloSuite' can be transformed into a premium twin room, ideal for sharing.

With 'SoloSuite,' passengers can enjoy the flexibility to choose between privacy and conviviality, ensuring a tailored travel experience.

VISTA VIEWS

The bedrooms are centred around large windows that frame the passing landscape and bring the outside world into the room. The architecture and layout are designed to celebrate these views, keeping them at the heart of the experience. When desired, blinds can be deployed to soften daylight or provide complete privacy.

FLEXIBLE FORMAT

The room features a spacious seat and bed, with the layout centred on the experience of a single passenger. The design opens up the room's vertical space, creating a bright, airy atmosphere while allowing additional storage above. Dual windows further enhance the sense of light and openness. A central divider can open to connect two Solo Rooms, creating a distinctive suite with a spacious central table for shared activities or meals.

ELEVATED ACCESS

Our accessible room features wide sliding doors with audio and tactile controls for ease of use. Strategically placed handrails and a carefully planned layout maximise accessibility, providing turning space for people who use wheelchairs and ample room for seat and bed transfers. Lighting and blinds are fully accessible, while carefully selected flooring and finishes enhance visibility, creating a safe, functional, and user-friendly environment.

BETTER BEDS

The beds have been carefully designed for flexibility and ease of use. The upper single berth provides comfort and safe access, with a flexible ladder and integrated handrails to support passengers climbing in and out. The lower double berth offers a spacious, accessible sleeping space that can be used in either orientation, with handrails on three sides and well-placed lighting to ensure confidence and comfort. Together, the arrangement balances accessibility, convenience, and a restful journey.

BESPOKE SOLUTIONS

Our accessible room is designed with flexibility in mind, offering various configurations to meet different needs. A dedicated accessible space by the window ensures passengers who use wheelchairs can enjoy scenic views comfortably. The inclusion of a fold-out seat with an integrated backrest adapts the space to different accessibility requirements, catering to the diverse needs of our passengers and ensuring a space that is suitable for everyone.

26-FOI-00815 0000006271 "UNCLASSIFIED" 4/30/2026

DINER

Traditional Dining, Timeless Delights

Continuing the tradition of Amtrak dining cars, our new long-distance trains offer the classic format with contemporary flair. Step aboard to savor freshly prepared meals against the backdrop of breathtaking scenery. In our dining cars, you'll embrace a communal spirit, sharing tables and

stories with fellow travelers, making every journey unforgettable. As part of Amtrak's tradition, we provide a unique dining experience that enhances the magic of long-distance travel, turning your meal into a memorable voyage.

ACCESSIBLE FOR ALL

In the Diner, accessibility is paramount, allowing everyone to relax and enjoy its comforts. An accessible pathway, designed to accommodate passengers who use wheelchairs, extends throughout the entire diner car. Handholds on every booth provide stability for passengers as they navigate the car. Handrails seamlessly transition into the glass dividers which enhance the sense of security and privacy.

CURATED AMBIANCE

Curated lighting and skylight blinds are used to curate an ambiance that transforms throughout the day, creating an inviting, calm, and sophisticated atmosphere during daylight hours and transitioning seamlessly into an intimate, sumptuously cozy setting in the evening. A captivating and adaptable dining experience designed to kindle feelings of romance and indulgence as passengers dine with us. Our signature table and wall lamps add a touch of restaurant-like charm, ensuring a delightful dining experience tailored to your every need. We are committed to crafting memorable moments during every meal in our Diner car.

A TOUCH OF CLASS

Our dining cars are more than places to enjoy a great meal; they are a destination space that lives at the heart of the journey. The design of the diner on our new long-distance trains respects the heritage of these spaces with refined elegance, evoking a warm and inviting ambiance. Red booth seating symbolizing a first-class service and fostering a sense of warmth and connection. Bold blue accents in the table lamps add a contemporary touch, creating a timeless yet captivating atmosphere. Confident textural lines on seats, dividers, and window pillars break up the space, accentuate the height, and add a sense of grandeur to the interior architecture.

CRAFTED MATERIALS

In our Diner, simplicity in form and construction allows us to prioritize premium materials and exceptional build quality. Our solid surface tables feature refined marble finishes, complemented by booth seating wrapped in rich wood veneers. These thoughtful choices not only enhance the ambiance but also ensure durability and comfort, reflecting our dedication to an elevated and dependable dining experience.

DESIGNED FOR SERVICE

The Diner is designed to support efficient, premium at-seat service. A wide aisle allows crew to move easily through the car, while strategically placed service stations provide storage for cutlery, condiments, table service items, and waste. This allows crew to serve passengers smoothly and efficiently without unnecessary trips to the galley.

LOUNGE

Where Tradition Meets Inclusivity

Inspired by Amtrak's iconic observation and lounge cars, the new long-distance trains introduce a modern lounge designed for passengers to connect, relax, and enjoy the journey. Expansive windows frame panoramic views, while the fully accessible layout creates an inclusive space for everyone. A

beverage station provides a natural place to pause and socialize. The lounge continues the legacy of memorable journeys, bringing passengers together and celebrating the experience of travel.

THE SOCIAL HUB

The lounge offers a variety of seating settings designed to support different ways of using the space. Booth seating, long sofas, and open lounge areas allow passengers to choose between privacy and social interaction, while integrated power, coffee tables, and clear accessible pathways support comfort and convenience. The result is a welcoming, flexible environment where passengers can relax, connect, and enjoy the journey

HERO THE VIEW

In the lounge car, the view takes center stage. Expansive windows and skylights frame panoramic vistas of the American landscape, filling the space with natural light and a strong connection to the journey outside. The architecture and interior layout are carefully arranged to keep sightlines open, ensuring passengers can enjoy the scenery from every seat.

A WELCOMING RETREAT

The lounge car is designed to transform throughout the journey. Natural light, adjustable blinds, and carefully balanced lighting shift the atmosphere from bright and open by day to warm and relaxed in the evening, creating a comfortable space to unwind, connect, or simply enjoy the view.

CAFE

Savor the Journey

The Cafe is more than just a place to purchase refreshments; it's a destination for passengers to explore and unwind during their Amtrak long-distance journey.

Its welcoming, accessible counter, bold geometric design, and patterned wall finishes create a contemporary coffeehouse aesthetic.

Striking feature lights set the ambiance, while digital menu screens offer up-to-date information.

The thoughtful design ensures an attractive and passenger-friendly experience while maintaining an efficient space for the crew to work.

CAFE COUNTER

The café features a spacious open counter at an accessible height, creating a welcoming and passenger-friendly point of service. The counter is intentionally kept clear of equipment to support future food service options such as grab-and-go. Digital menu screens, positioned at queuing and point-of-purchase locations, connect to live data to provide up-to-date menus, promotions, and passenger information.

OPTIMIZED OPERATION

The back-of-house design follows a forward-thinking, modular approach that allows equipment to be upgraded or reconfigured as service models evolve. Equipment is arranged to support efficient and safe staff operation.

Areas closest to passengers are designed with a premium aesthetic to support point-of-purchase sales. Visual merchandising and food displays are carefully positioned to highlight fresh, appetizing options.

EQUITABLE EXPERIENCE

The seating in the Cafe has been thoughtfully designed with premium finishes, mirroring the quality and comfort found in the Diner while also providing a fully accessible space. This means our coach customers can experience the same levels of luxury and relaxation while enjoying their journey without exceeding their budget.

TOILETS & SHOWERS

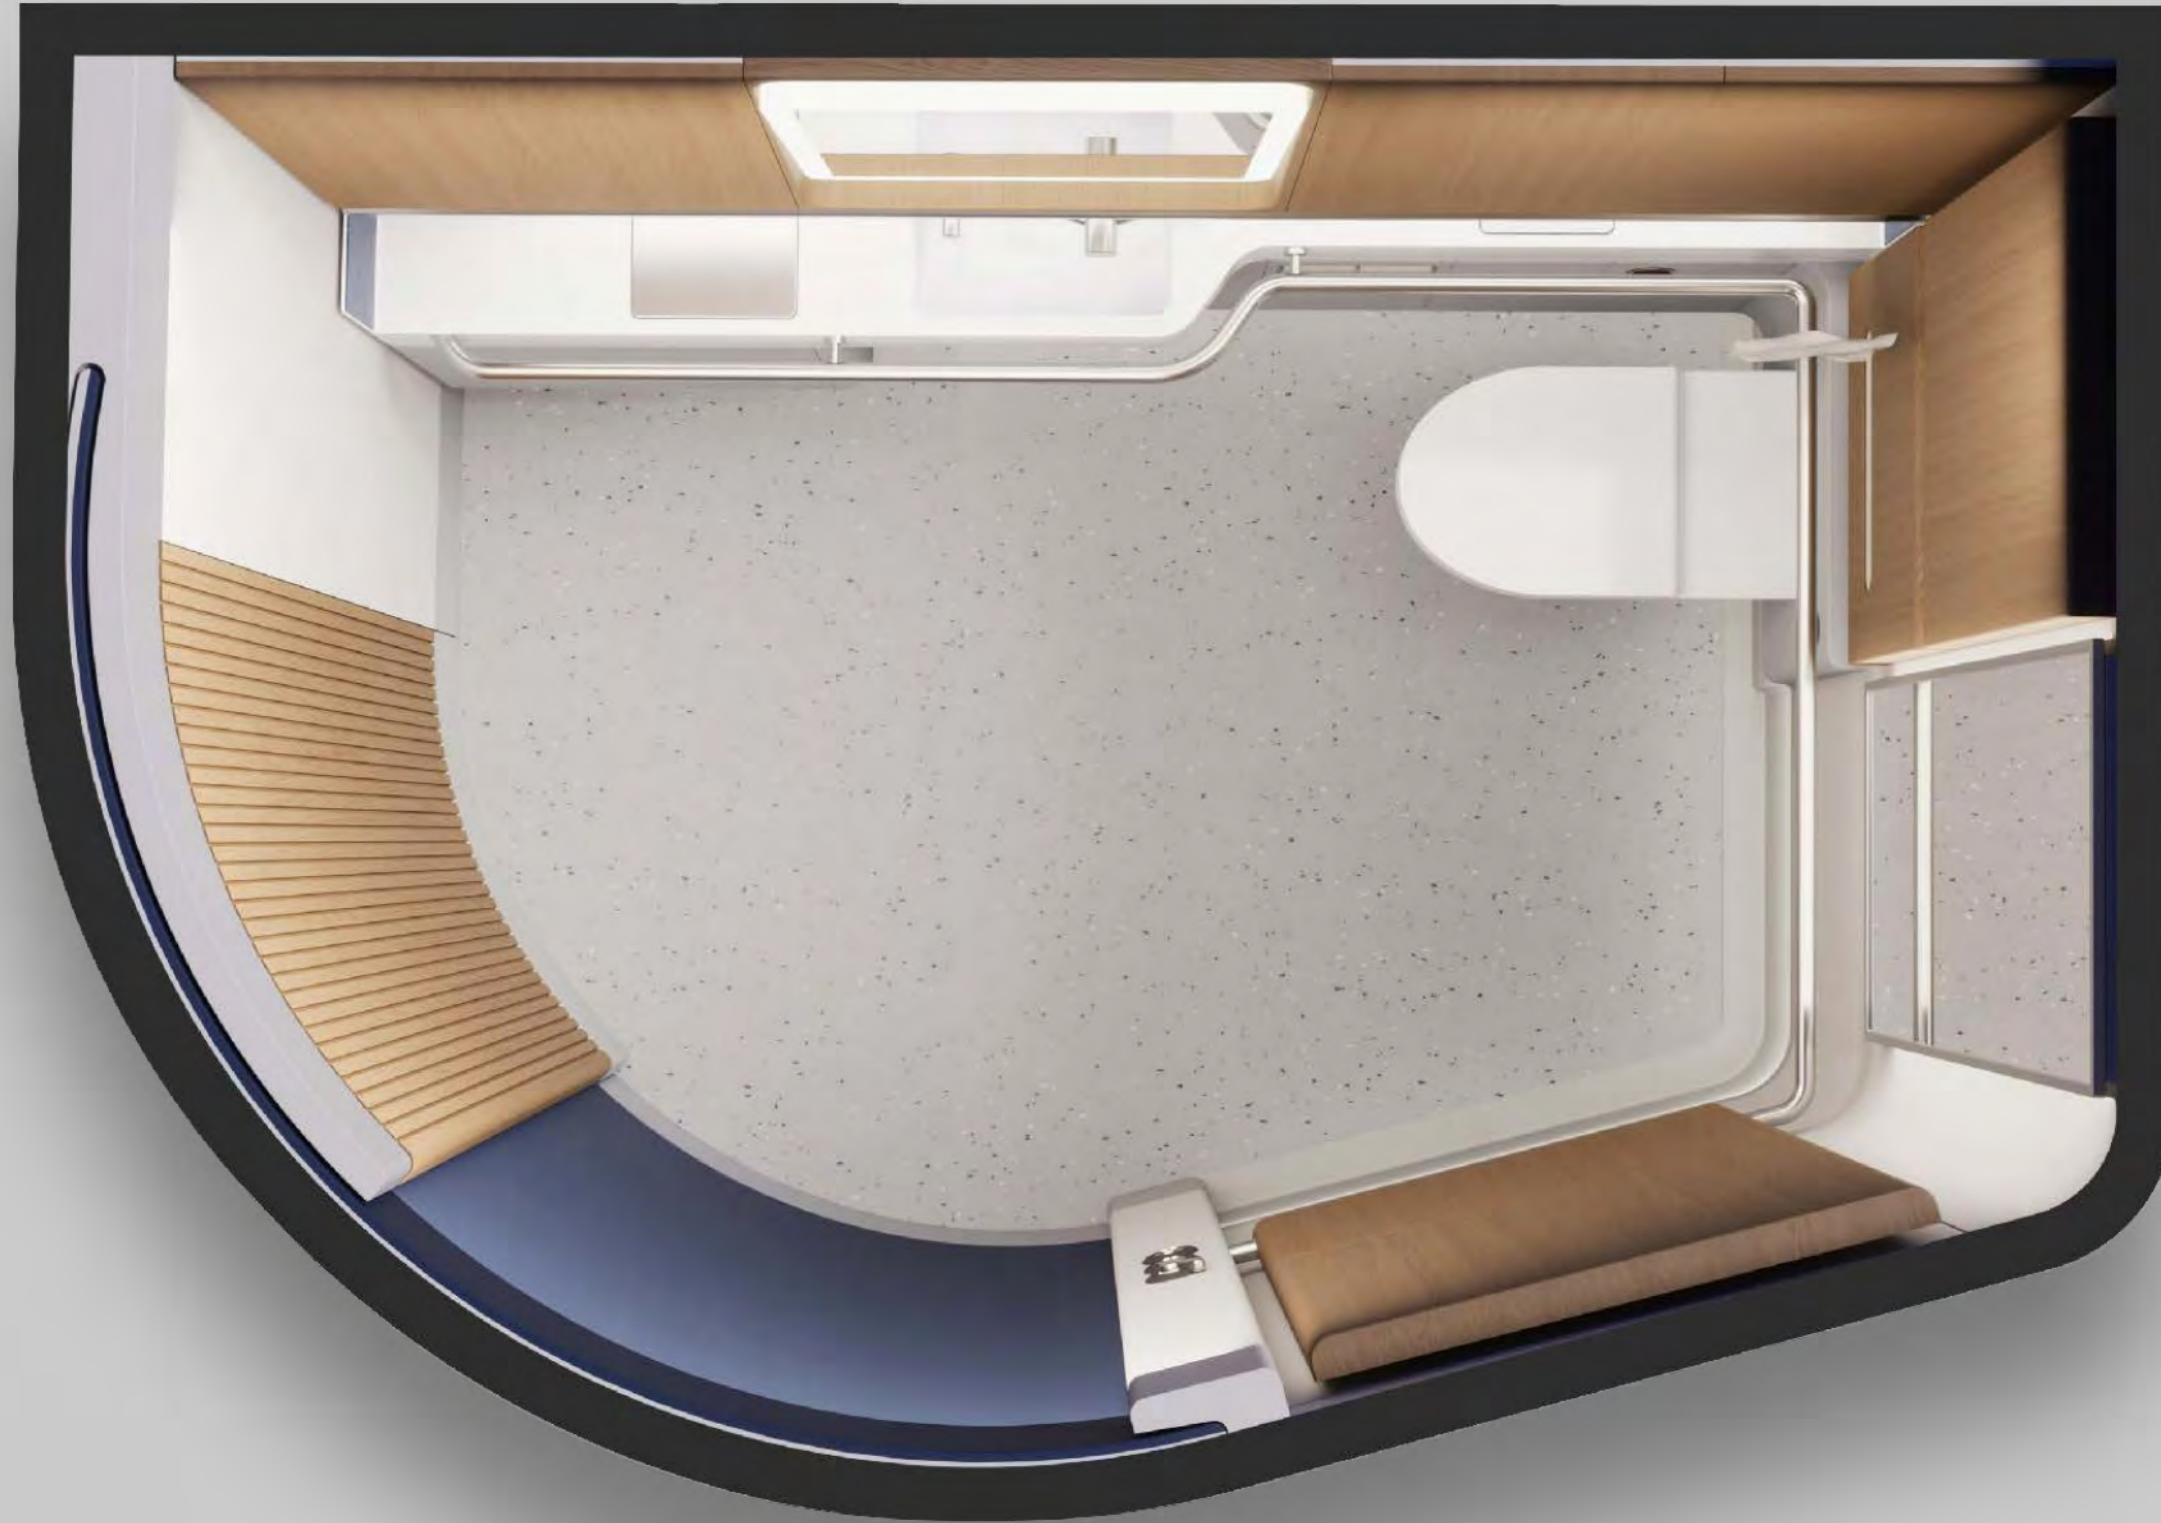

Ensuring Refreshing Comfort for Your Journey

A range of thoughtfully designed restrooms and showers have been designed on board to ensure that every passenger's needs are met with comfort and convenience. Our commitment to passenger

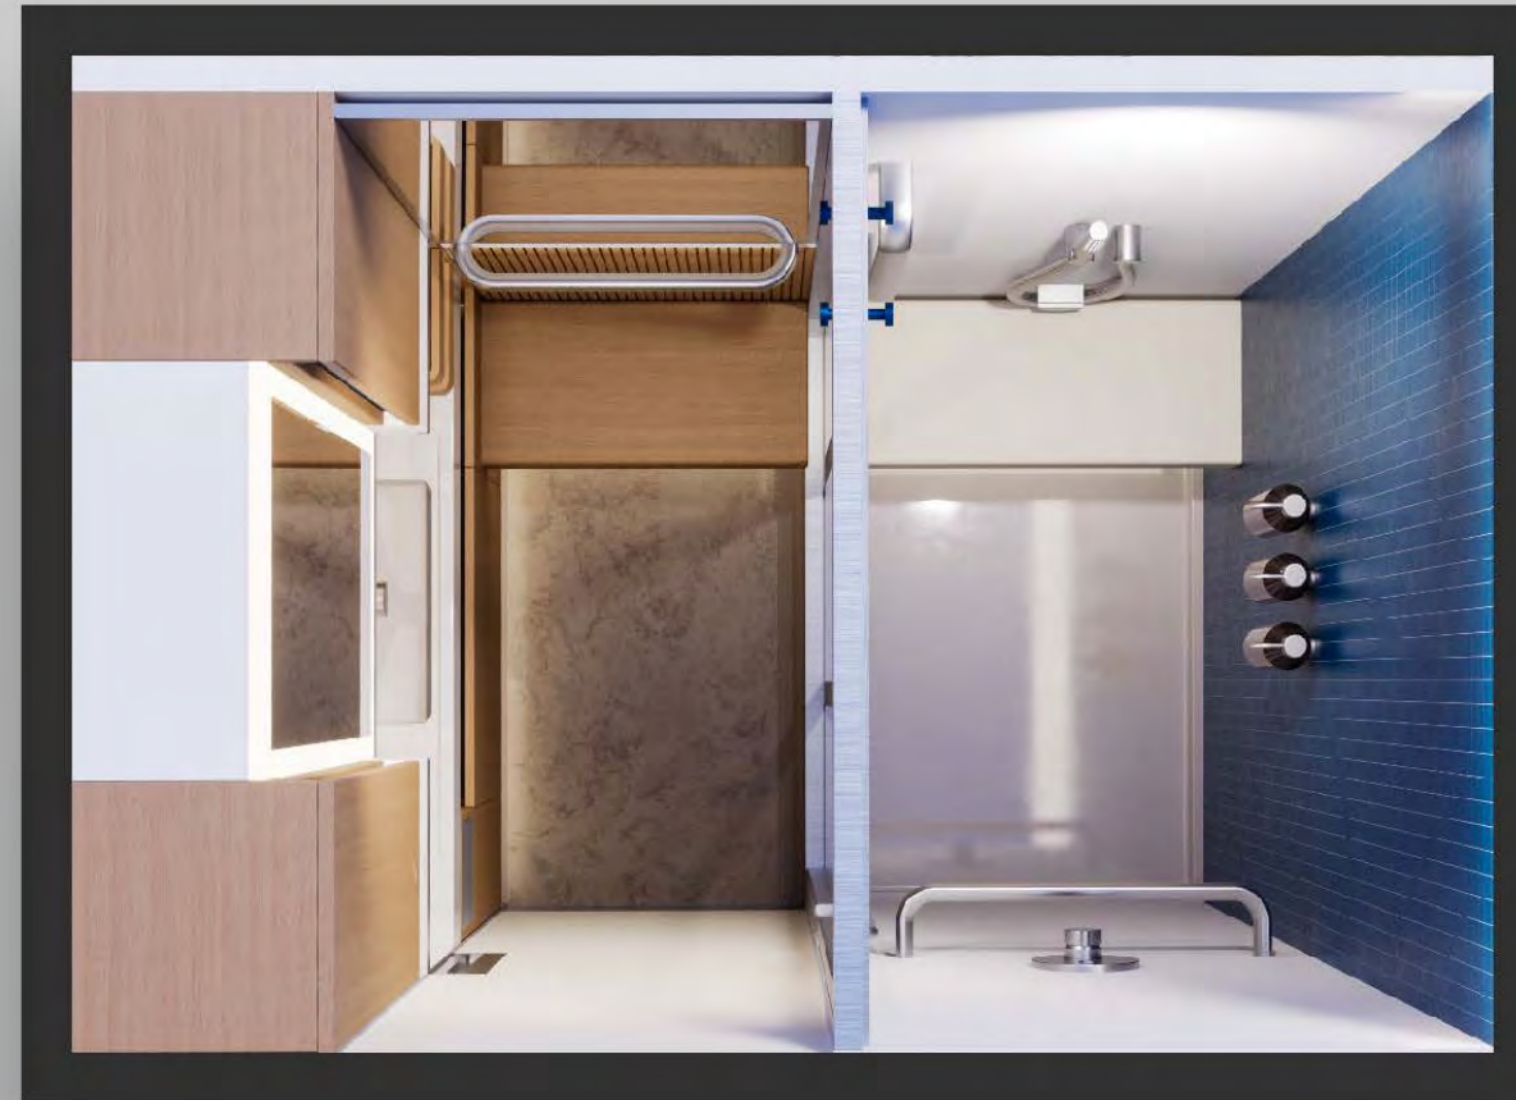

satisfaction is reflected in the carefully curated design of each facility, ensuring a refreshing and comfortable experience throughout your journey.

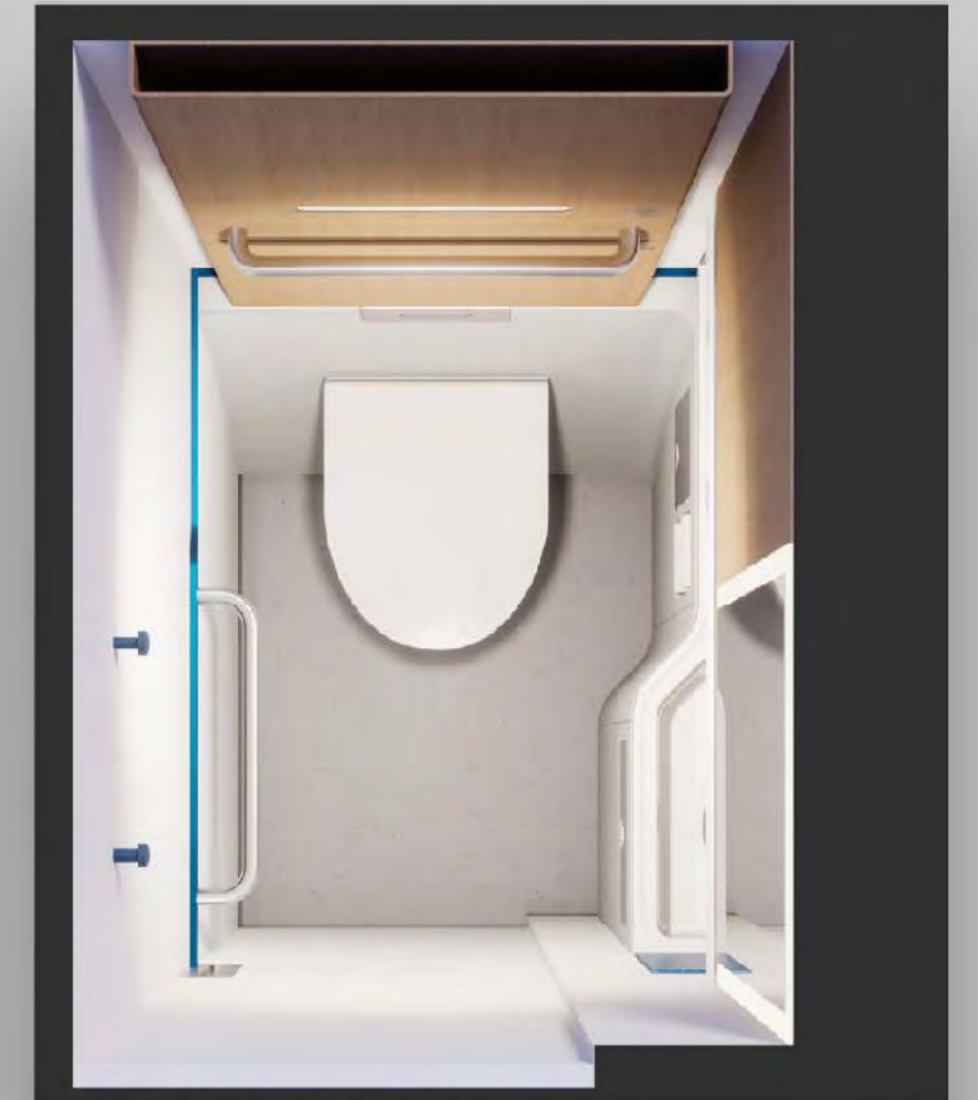

Accessible
Toilet Room

Shower &
Changing Room

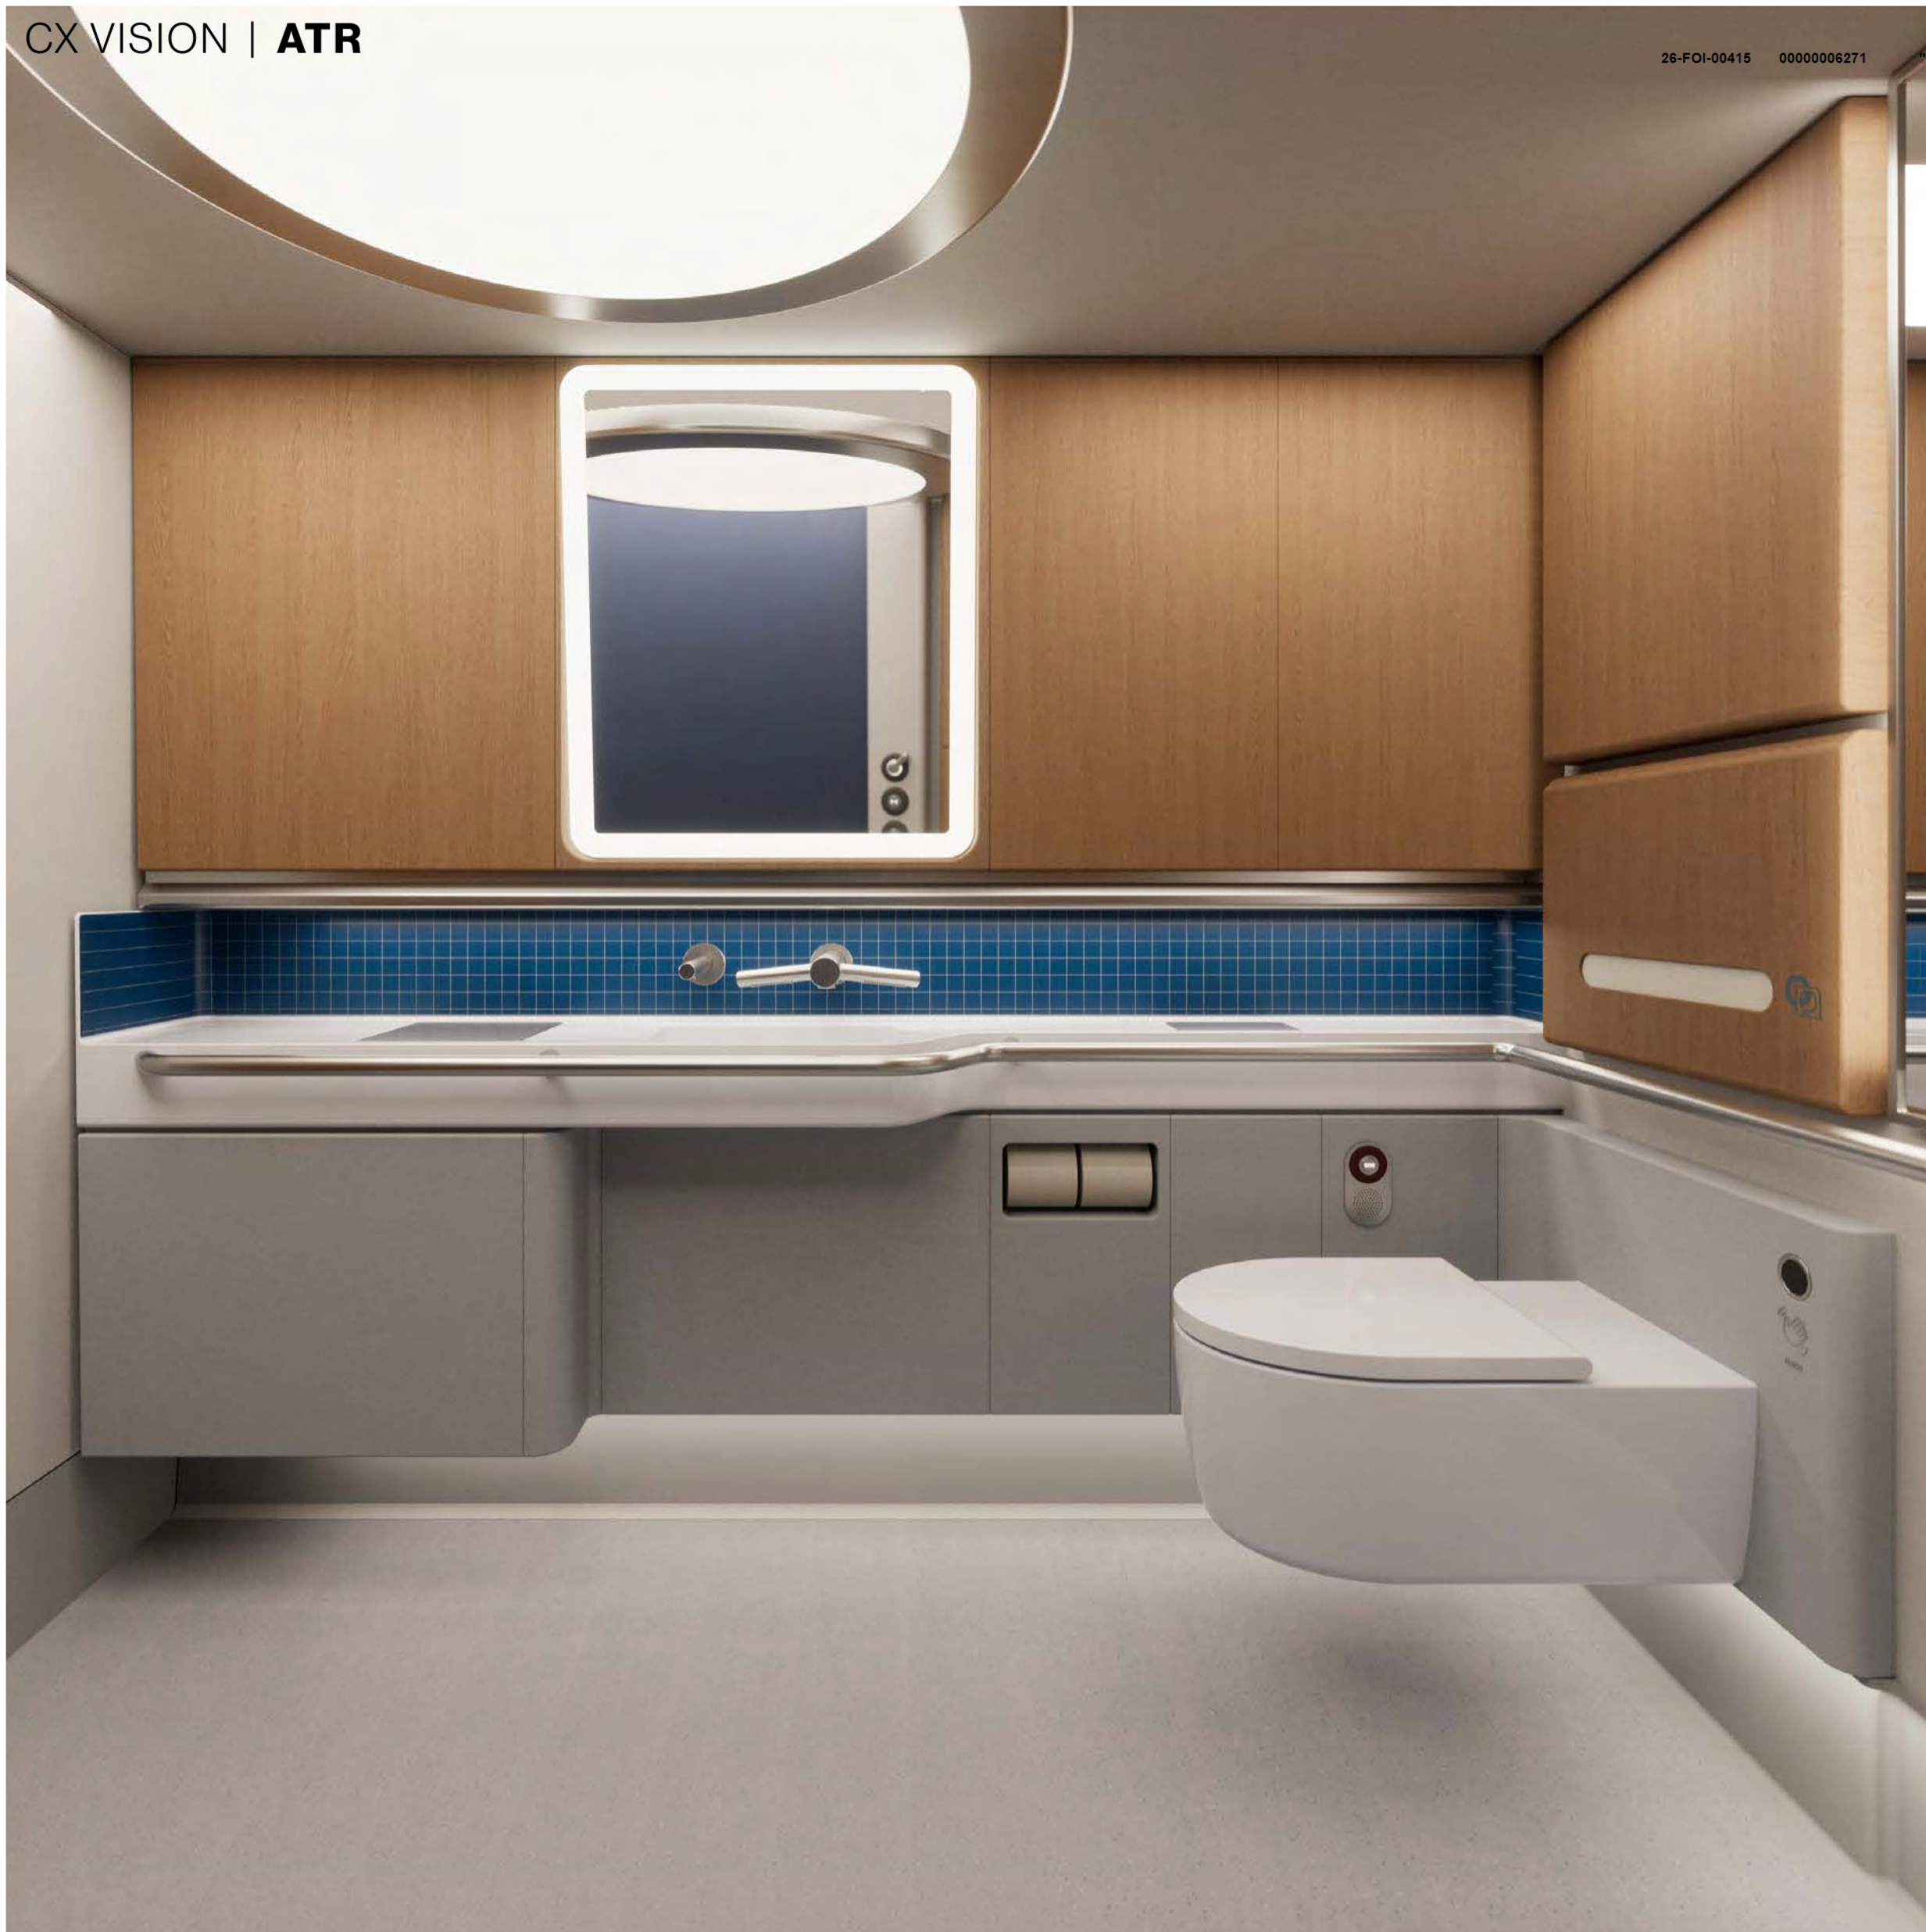

Standard
Toilet Room

ACCESSIBLE TOILET ROOM

Our Accessible Toilet Room, optimized for people who use wheelchairs and for our customers with diverse accessibility needs, offers a spacious and inclusive experience.

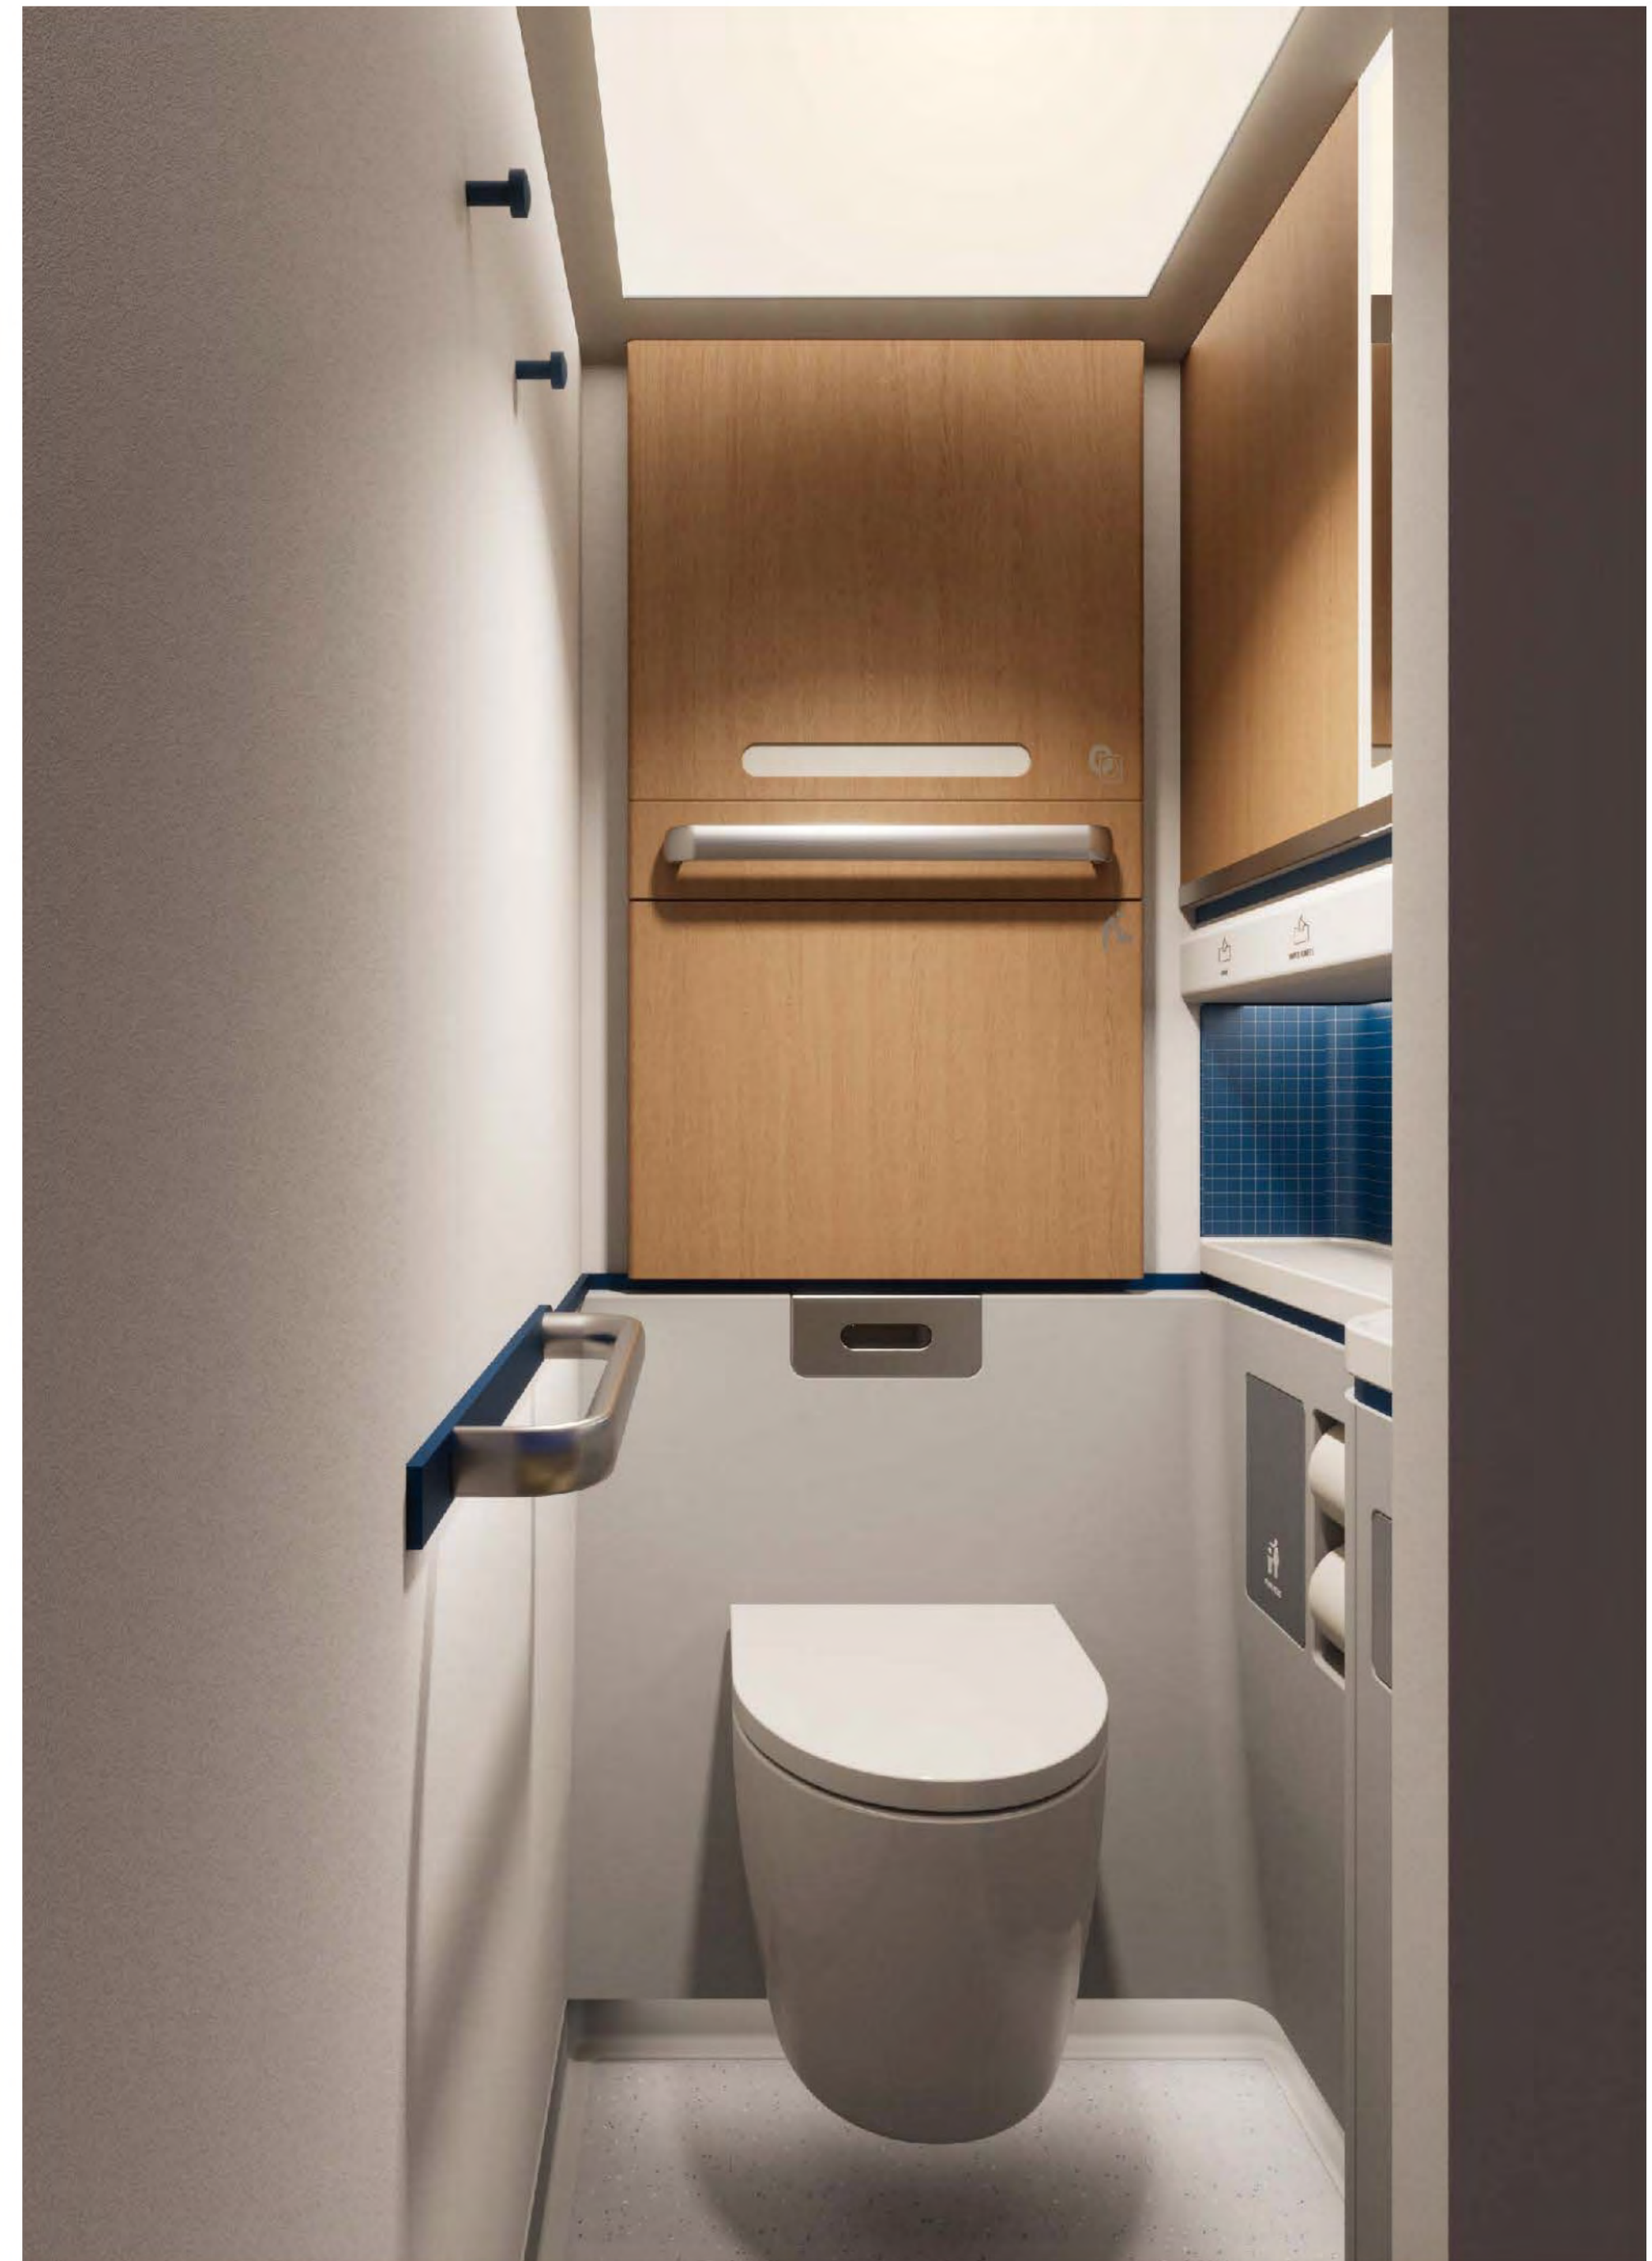

STANDARD TOILET ROOM

Our Standard Toilet Room facilities provide a modern bathroom look and feel, featuring a toilet, sink and vanity area, compact yet stylish.

SHOWER & CHANGING ROOM

First class customers can indulge in our shower and changing room, boasting a beautifully appointed shower accompanied by a vanity area and a dedicated changing space.

26-FOI-00415 0000006271 "UNCLASSIFIED" 4/30/2026

CREW QUARTERS

Where the Heartbeat of Amtrak Resides.

Recognizing the pivotal role our crew plays in ensuring a seamless travel experience, we've crafted crew car that is purpose-built for the extended periods our crew spends on our trains. Our new trains will boast a crew rest area equipped with crew lockers, seating and a kitchenette, creating a

space specifically designed to prioritize their well-being.

At Amtrak, we value our crew, and our Crew Quarters reflect our commitment to their satisfaction and overall quality of life on the rails.

CREW REST

A designated crew rest area will provide a space for socializing, fostering camaraderie among staff, while a small private kitchen allows them to prepare meals and unwind during well-deserved breaks.
